

GROWING SMARTER

AMS MAXX

CONCENTRATED WATER CONDITIONING & DEPOSITION ADJUVANT

PRINCIPAL FUNCTIONING AGENTS:

Ammonium sulfate complex, polymeric
deposition agents and foam retardant 35.00%

CONSTITUENTS INEFFECTIVE AS SPRAY ADJUVANT: 65.00%

TOTAL: 100.00%

MSDS available upon request

KEEP OUT OF REACH OF CHILDREN
CAUTION

See Inside Booklet for Additional Precautionary Statements
and Complete Directions for Use.

FIRST AID

IF SWALLOWED:	<ul style="list-style-type: none">• Call a physician or Poison Control Center.• Drink 1 or 2 glasses of water and induce vomiting by touching back of throat with finger, or if available by administering syrup of ipecac.• If person is unconscious, DO NOT give anything by mouth and do not induce vomiting.
IF ON SKIN:	<ul style="list-style-type: none">• Wash with plenty of soap and water.• Get medical attention if irritation persists.
IF IN EYES:	<ul style="list-style-type: none">• Flush eyes with plenty of water.• Call a physician if irritation persists.
IF INHALED:	<ul style="list-style-type: none">• Remove victim to fresh air.• If not breathing, give artificial respiration, preferably mouth-to-mouth.• Get medical attention.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Causes eye irritation. Harmful if swallowed or absorbed through skin. Do not get in eyes, on skin, or on clothing. Avoid breathing spray mist. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash clothing before reuse.

Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application.

ENVIRONMENTAL HAZARDS

Do not apply directly to water, or to areas where surface water is present, or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment washwaters.

GENERAL INFORMATION

AMS MAXX is a concentrated multi-function spray adjuvant that is designed to increase spray deposition and manage off-target drift. **AMS MAXX** provides excellent pesticide

compatibility, mixing easily with most Roundup and generic glyphosates, including new potassium salt formulations such as Roundup WeatherMax. When used at labeled rates, **AMS MAXX** conditions water and contains emollients which may improve absorption of herbicides into plant tissue.

WARNING: No product will provide 100% control of spray drift. The effects of **AMS MAXX** and the spray application may be changed by environmental factors and the condition of the spray equipment. Unexpected wind gusts can move spray onto sensitive plants or crops and cause severe damage.

Use strainer screen no larger than 50 mesh. In some cases, additional ammonium sulfate or nitrogen fertilizer may be added as required by the pesticide label.

DIRECTIONS FOR USE

Read and follow the precautions, restrictions and recommendations on the labels of pesticides used with **AMS MAXX**. Use according to the most restrictive label directions for each product in any tank mix.

MIXING: Shake well before using as product may separate. Fill spray tank $\frac{1}{2}$ full of water and begin agitation. Add the recommended amount of **AMS MAXX**. Continue mixing until fully dissolved. Add pesticides as directed by label or in the following sequence and continue filling tank: (1) WDG or DF, (2) Wettable powders, (3) Flowables and suspension concentrates, (4) Water-based, (5) Emulsifiable concentrates, and (6) Other surfactants. The use of a water conditioning and deposition aid requires the spray equipment to be properly calibrated, otherwise poor pesticide performance or off target drift may occur. Visual inspection of the spray application may dictate an adjustment of the adjuvant rate.

RECOMMENDATIONS: Specific use rates will vary with conditions of application such as water hardness, application method, equipment, spray droplet size, condition of foliage, etc. Rates of **AMS MAXX** higher than those below may be used if recommended by pesticide labeling. Rates of **AMS MAXX** higher than those below may be used if recommended by pesticide labeling. Follow pesticide label directions. However, do not add this product at a rate which exceeds 2% of the finished spray volume.

AIR or GROUND: Use 2-6 quarts per 100 gallons of finished spray solution. Use the higher rates for higher pressures and increased drift reduction.

STORAGE AND DISPOSAL

DO NOT CONTAMINATE WATER, FOOD, OR FEED BY STORAGE OR DISPOSAL.

STORAGE: Store in original container away from children, animals, foods, feeds and seeds. Handle in accordance with Precautionary Statements. In the event of spillage or leakage, soak up the material with absorbent clay, sand, sawdust or other absorbent material. Scrape up and dispose in accordance with Product Disposal.

PRODUCT DISPOSAL: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

CONTAINER DISPOSAL: Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state or local ACRC recycler, visit the ACRC web page at www.acrecycle.org. Decontaminated containers may also be disposed of in a sanitary landfill.

CONDITIONS OF SALE AND WARRANTY

Fertilizer Company of Arizona, Inc. warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes stated when used in accordance with the use directions under normal conditions. Fertilizer Company of Arizona, Inc. neither makes, nor authorizes any agent or representative to make, any other warranties, express or implied, including fitness or merchantability.

The directions for use of this product are believed to be reliable and should be followed carefully. However, it is impossible to eliminate all risks inherently associated with use of this product. Crop injury, ineffectiveness or other unintended consequences may result because of such factors as timing and method of application, weather and crop conditions, presence of other materials, or other influencing factors, all of which are beyond the control of Fertilizer Company of Arizona, Inc. and Seller. Buyer and user acknowledge and assume all risks and liability resulting from the handling, storage and use of this material not in strict accordance with directions given herewith. In no case shall Fertilizer Company of Arizona, Inc. or the Seller be liable for consequential, special, indirect, or incidental damages or losses resulting from the handling or use of this product. The foregoing is a condition of sale by Fertilizer Company of Arizona, Inc. and is accepted as such by the Buyer.
